

## MGT 381: Business Continuity Planning

MGT 381 is an 8-hour, DHS/FEMA-certified, tuition-free, planning and management-level course. This course provides business continuity training to rural communities nationwide. In an effort to standardize terminology among private and public sector entities, it identifies commonalities between emergency management and business continuity planning (BCP). It outlines BCP within the framework of emergency management and the core capabilities of the National Preparedness Goal. Continuity is an important element of preparedness and an integral part of each core capability across the five mission areas of protection, prevention, mitigation, response, and recovery.

Topics include (but not limited to):

- Business continuity planning process
- Essential functions
- Business impact analysis
- Recovery strategies
- Plan development
- Tabletop activity

Who Should Attend:

- Governmental Administrative/Elected Officials
- Private Sector/Corporate Security and Safety Professionals
- Public Works
- Community Emergency Management Personnel
- Community Stakeholders
- Retail Representatives
- Food Production
